COMMERCIAL INTELLIGENCE

FRIDAY EVENING, MARCH 17.

LONDON telegrams of yesterday quote Consols 101⅛, Sterling Loan 101⅛, Rupee Paper 4 per cent. 84⅞ and 4½ per cent. 91½. The Bank of England Returns for the week showed a continued strengthening of its monetary condition, there being an increase of £1,000,000 in the Reserve of Notes, an increase of £900,000 in the Stock of Bullion, and a decrease of £200,000 in the Bills discounted ; while the proportion of Reserve to Liabilities had risen to 42 per cent. The market rate of discount is quoted ½ per cent under the Bank minimum.

METALS are unchanged.

COTTON closed firm in Liverpool ; sales 12,000 bales ; spot quotations are unaltered. Arrivals are quoted as with a higher tendency, and Mid-Upland for June and July is now quoted 6⅞d., which is again approaching very nearly 7d. per lb. Surats to arrive are quoted :—

Dhollera, Good, F. G. F. Cl.,	Apr.-May.,	Shpt.,	Canal	5 7-16
Oomras	do.	do.	do.	5⅛

And we may remark on the "arrival" rates for Surats generally that they now very nearly correspond to the spot quotations, while a few weeks ago they were something like ¼ per lb. lower.

In America the receipts are only 7,000 bales, and Mid-Uplands are quoted on the spot 12 3-16, and June deliveries 12·74, which for both spots and futures are the highest points we have touched this season.

The Manchester Market is reported quiet, but steady, with no change in quotations. Owing to the advance in New York and the stronger reports from Liverpool, our market has been again firmer, and prices of the better class of Broach and Dholleras are 1 to 2 rupees higher, with a fair inquiry at he advance. Broach has been freely inquired for at Rs. 234, for March delivery. Fine Dhollera is also in good demand, and several contracts are reported at Rs. 210. Oomras are in good demand at the full rates of yesterday, but the heavy arrivals prevent holders standing out for any quotable advance.

Yesterday afternoon the Share Market was very quiet and prices of Spinning shares had again a downward tendency. To-day they are again weak, and in many cases a further fall of Rs 5 to Rs. 15 has taken place. The Hindostan Mills, however, have advanced from Rs. 1,030 to Rs. 1,095, as they have just declared a dividend of Rs. 80 per share for the half-year. Press shares are rather firmer, but Land and Bank shares are rather weak. Bank of Bombay has been done at Rs. 765.

Exchange for the mail closes a little firmer for demand draft, but in other positions unchanged. We give quotations as under :—

HIS EXCELLENCY GENERAL HARDINGE, Commander-in-Chief of the Bombay Army, arrived in Bombay from Poona yesterday morning; and will inspect the Bombay Volunteers, on the parade ground, in front of the Gymkhana this evening. The officers of the Corps will entertain their Honorary Colonel at dinner to-night, at the Apollo-bunder.

AT the meeting of the Town Council yesterday the question of the means at the disposal of the Corporation for extinguishing fires was considered in connection with the report of the Works Committee on the subject. Rao Saheb V. N. Mandlik moved that the report be adopted and the recommendations of the committee carried out. The Rao Saheb said he did not make his motion in consequence of anything which had appeared elsewhere. He had always been prepared to accept the report at any time; but he did not think its adoption would save them from accidents; or that the moving of one or two resolutions would extinguish fires that might happen to-morrow. The motion was carried after some discussion as to keeping the matter in abeyance until the decision of the Government in regard to the police grant were made known. Mr. Nowrozjee Furdoonjee having asked for an explanation of certain statements made by a contemporary as to an alleged insufficient supply of water in the Lower Colaba main on the night of the fire in the Oriental Mill, elicited from the Municipal Commissioner that there had been no defect in the service, and that they could have hardly done more than limit the fire to the four walls of the mill. The Council, in a resolution expressed its satisfaction with the manner in which the fire had been extinguished, and it was also resolved, on the motion of Captain Morland, that letters of thanks be addressed to the General Commanding the District and the Commander of the Woodlark, conveying the thanks of the Council for the assistance rendered by the contingents of soldiers and marines who assisted in putting out the fire.

AN adjourned private meeting of members of the High Court Bar was held yesterday afternoon in the robing room for further considering what steps should be taken to recognise the services of Sir Michael Robert Westropp on his resignation of the office of Chief Justice of Bombay. It was resolved that a life-size portrait of His Lordship, to be executed by Mr. Griffiths of the Sir Jamsetjee School of Art at an estimated cost of about Rs. 1,200, be placed in the Law Library. The portrait, it is understood, will be similar in size to that of Sir William Roper, a former Chief Justice of the late Supreme Court, which has been placed in the Law Library. It was further resolved that a written address to the retiring Chief Justice be dispensed with; but that, on the day his Lordship presides in court to deliver judgments in cases heard before him some time ago, the Advocate General should address him in the name of the Bar in terms expressive of their appreciation of his services as Chief Justice.

MEDICAL boards similar to that recently nominated by the Government of Bombay to watch the fluctuations of cholera are to be established by order of the Government of India at the ports in British Burmah. At the small ports the Civil Surgeon or Sanitary Officer will furnish the necessary information. At Rangoon the board will consist of the Deputy Surgeon-General, the Town Health Officer, and the Port Health Officer; and at Moulmein of the Port Health Officer, the Medical Officer who is Superintendent of the Jail, and the Medical Officer who is in charge of the troops—(with the permission of the Major-General Commanding).

A MINUTE has been written by Sir Louis S. Jackson on the subject of the talked of reduction of the salaries of the Calcutta High Court judges. Sir Low's Jackson points out that the High Court of Calcutta exercises administrative authority over territories inhabited by about 80,000,000 of people; and that it is, in the majority of cases, the court of last resort for the civil litigation of this immense population. He is therefore of opinion that the salary of the judges exercising this power, and assuming these immense responsibilities, ought to be in proportion to the duties expected in return. He argues that the present salary of £5,000 per annum is by no means too large, and that when the amount was fixed the relative importance of the various high offices in India was taken into consideration, in addition to the question of retrenchment. He is furthermore of opinion that the consequences of the reduction would be a serious weakening of the court and a withdrawal of public confidence, and that any blow struck at the status of the judges would be followed by a loss of the respect in which they are held by the people of

DEPUTY SURGEON-GENERAL W. JAMESON, C.I.E., formerly Superintendent of Botanical Gardens in the North-West Provinces, died at Dehra Doon on the 13th inst. The *Pioneer* remarks that his death "removes an old servant of the State who has done much good work in India. Three years after his arrival in the country, in 1841, Dr. Jameson was sent to report on the geology of the Himalayas with a view to the discovery of the cause of the floods on the Indus. While on this expedition he was captured by the frontier tribes, and kept a prisoner until he was ransomed by the Government, who afterwards appointed him Superintendent of the Botanical Gardens in these Provinces. During his long tenure of this office, Doctor Jameson devoted his energies to the introduction of tea cultivation into the North-West and Punjab. The present success of the tea-gardens in Kangra and Kumaon is the best testimony to his efforts. They were also more than once acknowledged by Government, who, on his retirement in 1875, placed on record the opinion that but for Doctor Jameson's exertions this great and important industry would have had no existence in Northern India."

A COLOMBO paper relates the following:—"Whilst the young Princes were at Nuwera Eliya a pleasing little episode occurred which should be chronicled. Prince Albert Edward played a game of lawn-tennis with a racquet which had been gracefully handed to him by a young lady who was present. The game finished, it was hinted to His Royal Highness by one of the suite present that the racquet would thereafter be more highly prized, when he at once took out his hunting-knife and laughingly engraved his monogram on the handle of the racquet,—returning it to the fair owner with a courteous bow and smile. She received it blushingly, and will no doubt preserve it as a pleasing memento of the event. We congratulate the fair owner on her possession of the racquet, with the monogram of the coming King done by his own hand, and wonder if there is any other young lady who was equally fortunate in securing a souvenir of her future sovereign during the Princes' visit to Ceylon."

SIR JAMES LONGDEN has not been a popular Governor in Ceylon, and Sir J. Pope Hennessey has certainly been anything but popular in Hongkong. An exchange of posts between these two unpopular Governors is talked of. The *Ceylon Times* says:—There is a probability, we believe, that Sir James Longden may proceed to Hongkong as Governor, when the term of his office in Ceylon shall have expired, early in next year. His Excellency has still three years to serve before he will be entitled to retire on a first-class pension of £1,000 a year. Whether the Governors of Ceylon and Hongkong will change the scenes of their administration, and Sir J. Pope Hennessey come to this island, is more than we pretend to say; but this also is a rumour. The Governor of Hongkong, with Lady Hennessey, will make a short stay in Ceylon at the end of the present month, on their way to England, whither His Excellency proceeds on six months' leave.

The document which Mr. Bradlaugh signed and left upon the table of the House of Commons turned out to be a copy of the Parliamentary Oath. The manuscript was subsequently taken possession of by Lord Randolph Churchill.

OUR lady readers may be interested to know that the Princess Helen of Waldeck, the bride-elect of Prince Leopold, on the occasion of her landing in England, wore a black velvet mantle trimmed with fur, a green silk dress, and a bonnet of the same colour fastened with gauze scarf veil.

A PICTURE of the present House of Commons, with the portraits of some three hundred and fifty members, has been painted by Mr. Sargent, and is now being exhibited in London. The picture was painted in one of the committee-rooms of the House; so that Mr. Sargent has enjoyed unusually good opportunities for getting satisfactory likenesses, and most of the likenesses are reported to be very good.

WE (*Daily News*, Feb. 18) have reason to believe that the objects of the joint communication from England and France on the Egyptian question cordially invited the Powers to assist in bringing about a settlement of existing complications and the promotion of a full European concert. Three matters were excepted from fresh negotiations, namely, the financial control, Turkish non-intervention, and the navigation of the Suez Canal. The peculiar right of England and France to deal with these matters has already been recognised by the Powers. The reception thus far given to the Joint Note is, as we stated yesterday, of the most friendly character, and will probably result in the delegation to England and France of the carrying out the common understanding of the Powers.

THE return of Michael Davitt for Meath, the *St. James's Gazette* explains, had of course no other object than that of causing annoyance to the Government; and it can have no other result. As in the case of the election of another Fenian convict, O'Donovan Rossa, for Tipperary, the return is void; the House of Commons will declare the seat vacant, and the Speaker will issue a new writ. Upon this event it is understood that Mr. Egan, the treasurer of the Land League, who had retired in favour of Davitt, will again present himself as the Land League candidate, and will doubtless be returned. Davitt, in fact, has only been elected, we are told, "in deference to the views of the Irish party, who, on the question of the time member's eligibility coming before the House, intend to raise the question as to his imprisonment." It is probably, therefore, only a device to secure priority as a question of privilege for one of those motions which Mr. Gladstone in a moment of generosity which did less credit to his head than his heart, undertook last year to meet, to the number, as it now turns out, of several hundreds "on the floor of the House of Commons."

IT is announced that preparations are already being made for the coronation of the Emperor of Russia, though the ceremony has been postponed until the comparatively distant month of September. There have only been three coronations during the present century—that of Alexander I. in 1801, of Nicholas in 1826, and of Alexander II. in 1856. In the cortège which attended Alexander I. in the procession from the gate of the Kremlin to the Cathedral of the Assumption, where the act of crowning is performed, figured some of the distinguished noblemen and courtiers who had assassinated Peter III. immediately before the accession of Catherine, and Paul before that of Alexander I.; and, noticing this, one of the Ambassadors is said to have whispered, "There he goes, preceded by the murderers of his grandfather, flanked by those of his father, and followed by his own." It is not certain, however, whether Alexander I., whose death is attributed to the malaria of the Crimea, perished of low fever or of slow poison. Doubts are entertained as to whether Nicholas died from fever, the result of exposure to cold (which His Majesty, out of compliment to his native land, persisted in ignoring), from suicide by poison, or of a broken heart—in other words, from mortification, in the moral sense of the term. There is, unhappily, no doubt as to how the life of Alexander II. was brought to an end; nor that Alexander III. has reason to fear that he may be killed in taking his crown.

AFFAIRS seem to be in a shocking condition in Peru. Information to hand by the last mail gives particulars of an exploit on the part of a Peruvian colonel, who sacked a town and murdered the inhabitants. It appears that Colonel Mas, with 600 troops from Ica, attacked Villavicencio. The latter being routed, the force under Colonel Mas, by way of diversion, proceeded to sack the town of Pisco, with the aid of Villavicencio's troops. One thousand pipes of wine were distributed among the men, who set the houses on fire and murdered the inhabitants. Four hundred foreigners assembled to resist these marauders, but they were cut to pieces, and 300 of them were killed. The total number of victims exceeded 1,000, and the French Consul is reported to have lost his life in the fray.

WE have to regret, a London paper writes, that we once did an injustice to Mr. Oscar Wilde. It seems that after all that enthusiastic lover of the beautiful in nature, as expressed by the lily and sunflower, *did* feel impressed by the sight of Niagara. In fact, the famous falls had quite a serious effect upon him, for it made him gush in the following strain:—"When I first saw Niagara Falls I was disappointed in the outline. The design, it seemed to me, was wanting in grandeur and variety of line, but the colours were beautiful. The dull grey waters, flecked with green, are lit with silver, and are full of changing loveliness, for loveliest colours are colours in motion. It was not until I stood underneath the falls at Table Rock that I realised the majestic splendour and strength of the physical forces of nature here. The sight was far beyond what I had ever seen in Europe. It seemed a sort of emodiment of pantheism. I thought of what Leonardo da Vinci said once—that the two most powerful things in the world were a woman's smile and the motion of mighty waters." It is very pleasing to find that though the poet was disappointed with the outline, he was pleased with the bulk. Why, however, the "dull grey waters, flecked with green," should remind him of pantheism, we fail to see.

THE *Financial Reform Almanack* reports that in the general list of the British Navy there are 100 vessels under 500 tons burthen each, and for every one of the remaining 315 there is an admiral, a vice-admiral, or a rear admiral, with seventy-four to spare for the rest; and for every two of the 636 vessels, including coal depôts, chapels, hospitals, reformatories, &c., an admiral of one kind or other, with seventy-six to spare; and two captains or commanders for every one of the 626, with 104 over. There is a similar glut of officers with regard to the Army.

GOLF.

THE game is played by two persons, or by four (two of a side playing alternately). It may also be played by three or more persons, each playing his own ball. The game commences by each party playing off a ball from a place called the *tee*, near the first hole. The hole is won by the party holing in fewest strokes.

The ball struck off from the *tee* must not be changed, touched, or moved before the hole is played out (excepting in striking according to the rules of Golf). A match to be reckoned one round of the course as existing at the time unless otherwise agreed upon. The Calcutta course consists of 9 holes, some 170 and 200, others 300 and 350 yards apart. The ball played with is made of gutta-percha and is larger than a racket ball. A good drive from the *tee* will despatch the ball from 130 to 280 yards.

About 80 to 100 yards is considered a good drive from the rise to the fall of the ball. The holes are about the size and depth of a finger glass. There are various chip, &c.; required to play this difficult and scientific game. Those usually used are the "driver," the "long" and "short" spoons when the lies in uneven ground, the "cleek" and "iron" for rough ground, and for what are called ½ and ¾ strokes on approaching the hole, and the "putter" usually used when the ball lies near the hole or on the "putting" green. The difficulties of the game, and the skill required to make a good player, may perhaps best be explained by the fact that an the Calcutta Club, consisting of about 100 members, there are only at present 3 "scratch." The qualifications for Golf are, strength for "driving" an exact eye, a steady and measured stroke for the short approaches to the hole, and skill in avoiding hazards.—*Asian.*

THE MAHOMEDAN THANKSGIVING MEETING.

ON Thursday afternoon a large and most enthusiastic meeting, consisting of about 5,000 persons representing persons of all ages from many portions of the Mahomedan community of Bombay, convened by Khan Bahadoor Honorary Surgeon Shaik Hyder Kassim and Khan Bahadur Meer Abdool Ali, assisted by Mr. Mirza Hoossein Khan and others, was held in a bungalow, at the Baboola Tank, known as Aga Mahomed Rahim Shoostry's Hall, which is now the property of Jamedar Burk Jung Bahadoor of Hyderabad, Deccan. The hall and the approaches thereto were tastefully decorated with flags of all nations, and a flag of "Welcome," was hoisted at the main entrance. The arrangements for furnishing and decorating the bungalow were undertaken and carried out in a suitable manner by Mr. Adamjee Peerbhoy with his usual liberality.

The Chairman, after explaining the object of the meeting, read a Persian poem eulogising Her Most Gracious Majesty Queen Victoria, Empress of India, and after giving a brief account of the providential escape of Her Majesty, the following resolution was unanimously adopted:—

"The Mahomedan community have received with great regret the intelligence of the attempted assassination by a lunatic of Her Most Gracious Majesty the Queen-Empress of India, and they hereby return their most heartfelt thanks to Almighty God for preserving Her Majesty from the fatal consequences of this diabolical attempt, and earnestly pray that the Queen-Empress of India may long be spared to reign over her most loyal subjects represented by the meeting now assembled."

The whole assembly then, as is usual among the Moslem on solemn occasions, spontaneously raised their hands in a reverent manner, and engaged in prayer on behalf of the Queen.

The following resolution was then moved by Khan Bahadur Meer Abdool Ali, who explained in a most impressive manner some of the manifold advantages of the British rule in India, and pointed out what should be the duties of loyal subjects towards their august and benign Sovereign:—

"That a Committee of Management consisting of the following gentlemen be appointed, and requested to prepare a suitable and proper address of congratulation on behalf of all sections of the Mahomedan community of Bombay (embodying a translation of the Persian poem above referred to), in view to the same being submitted to the Government of Bombay for transmission on to Her Most Gracious Majesty the Queen-Empress of India:—H. This was carried by acclamation.

The Khan Bahadurs heartily thanked the assembly for the great honour thus bestowed upon their humble labours, and stated that they had simply discharged their duty towards their benign Sovereign and their co-religionists.

A vote of thanks to the Chairman, proposed by Mr. Mirza Moosa Cowser and seconded by Mr. Sulieman Wahidna, was carried unanimously.

After distributing the usual *pan* leaf, nosegays, and rosewater, the meeting was dissolved at 6-30 p.m., with an expression of thanks to Mr. Adamjee Peerbhoy for the trouble he had very kindly taken in furnishing the hall, &c.

The composer of the oratorio is a member of the great public schools of England, and his choir have given performances of the oratorio at Harrow and in London. The subject is divided into two parts. The first part describes the life of Christ, the second that of His followers and soldiers. The words of both parts are selected mainly from well-known hymns. The oratorio was originally intended for children, but attained so great a popularity among the persons of all ages that many performances have been given, both as sacred concerts in Exeter Hall and other public places and as special services in some of the principal churches of London and the provinces.

THE ELECTRIC LIGHT AT KURRACHEE.—The people of Kurrachee had the pleasure of witnessing the electric light for a short time at the Frere Hall on Friday evening last. Owing to a defect, however, in the machinery, the connecting belt having slipped off, the light was only kept up for a minute or two. On the following evening the defect was remedied, and the large number of persons from camp, city, and suburbs who crowded the Frere Hall and the grounds adjacent had the satisfaction of seeing them more beautifully and brilliantly lighted up than they have known before. On the whole this the actual first lighting up of the Hall was a great success. An active agent and representative of the company who have adopted what is known as the dynamo-gramme machine with the Jablochoff candle system of electric lighting, has been making arrangements here for the introduction and trial of this light for the past fortnight. On the evening in question the light, which always looks well, was superlatively brilliant under the influence of the beautifully bright light, its fine proportions being brought out well and the shadows deeply marked by the flood of light displayed. In all there were six lamps lit—two in the great ball which is used for balls, &c., 2 in the corridor above each of the staircases, 1 in

CARLTON WHISKEY,

ELEVEN YEARS OLD.

Same as supplied to the Carlton and other London Club Houses.

THESE GRAND OLD WHISKIES are shipped only by RICHARD MATHEWS AND COMPANY, of London and Inverness, who are sole possessors of the Brand "CARLTON." They are distilled from the finest Highland Malt only, are in every respect equal to the finest Brandy, and guaranteed to be entirely free from Fusel Oil or other noxious impurities.

The following Testimonial has been received from the Secretary of the "CARLTON" CLUB.

CARLTON CLUB, 1875,
December 20.

MESSRS. R. MATHEWS & COMPY.

GENTLEMEN,—In reply to your inquiry as to whether the Whiskey you are supplying to this Club is approved by the Members, the best answer I can give is that the consumption of this spirit in the Club has GREATLY INCREASED since it has been supplied by your Firm. There can be no doubt whatever about the Whiskey being MOST EXCELLENT.

It is old and soft, and I may safely say that it is much approved by the Members.

CAUTION.—It has come to the knowledge of the shippers of the "CARLTON" WHISKIES that the empty bottles have been dishonestly refilled with the poisonous trash very often sold in India under the name of Whiskey, this is therefore to caution consumers to carefully examine the Capsules and Corks to see they have not been tampered with; also that the Corks, Capsules, and Labels are branded with Trade Mark.

DR. BRIGHT'S PHOSPHODYNE,

THE SAFEST AND ONLY RELIABLE PREPARATION OF PHOSPHORUS.

Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Timidity, Indigestion, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy, DR. BRIGHT'S PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of these hitherto incurable and distressing maladies.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Indigestion, Female Complaints, Flatulence, Liver Complants, Shortness of Breath, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE, Phosphorus was but seldom prescribed as a medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils in Sulphuric Ether, in Rectified Alcohol, in Chloroform, and in several advertised medicines; but, in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without an of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE is prepared on a NEW PRINCIPLE, by which all possible risk and disagreeable after effects are entirely prevented.

Caution.—Avoid Phosphorus in the form of Pills or Lozenges, as they frequently contain SOLID PARTICLES of Phosphorus, which accumulate in the system, causing serious evils.

DR. BRIGHT'S PHOSPHODYNE agreeable to the Palate and innocent in its action, while retaining all its extraordinary properties, and as a specific surpasses all the known Therapeutic agents of the present day.

DR. BRIGHT'S PHOSPHODYNE—Its use enables all debilitated organs to perform their natural functions. Persons suffering from Nervous Debility, or any of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual cure by the use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHODYNE.—The ONLY medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of counterfeit Phosphodynes and worthless imitations bearing similar names; they are in no way recognized by the medical profession. Being prepared from OBSOLETE Formulas, they are absolutely unreliable, and in some cases positively dangerous.

DR. BRIGHT'S PHOSPHODYNE

Is Sold in Cases only by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrassee, Bengallee, Chinese, and Japanese Languages accompany each case, without which none can possibly be genuine Phosphodyne. Every case bears the Trade Mark and Signature of Patentee.
